

**“ We have been working with Playground Guardian for a number of years doing our playground inspections, and they have become like an extension of our team. Their thorough inspections services have made our playgrounds much safer.**

**LUIS MILANES**  
ELIZABETH PUBLIC SCHOOLS, ELIZABETH, NJ

**“ The Playground Guardian team was phenomenal to work with! They were very flexible with our schedule and were all incredibly understanding that getting the playground reopened quickly was a top priority. The crew worked diligently against some unfavorable weather and finished right on schedule, allowing us to reopen our playground within the dates we had announced. The work was exceptional and the teams didn't leave a drop of material out of place. Their on-site customer service is second to none. They were engaged with our visitors and were happy to explain the work they were doing and provide information to anyone who stopped by.**

**ALANA DELANEY**  
DELAWARE STATE PARKS, PARK MANAGER

Playground Guardian was developed by one of the industry's leading playground rep agencies that has been designing, installing and maintaining playgrounds for over 50 years.

## **Park & Playground Inspection & On-Site Services**

**Park & Playground Safety  
is Our #1 Priority.**

**Now Offering  
Cleaning & Sanitizing  
Services!**

**Park Protector** is cloud-based, mobile-friendly playground inspection software. Manage, monitor and inspect any municipal, neighborhood or school playground system from your computer or any mobile device.

## Trusted by Over 5000 Parks & Playgrounds

**Park Protector** makes it possible to perform both low and high-frequency inspections, ADA assessments and audits yourself. We use the latest technology so you can save time and reduce liability with custom inspections.

### Save Your Team Hours of Work

The mobile-friendly interface of the playground inspection software makes it fast and easy to track issues and review reporting.

### Accessible Across Any Device

**Park Protector** is compatible with all desktop, tablet and mobile devices, making your reporting and data available everywhere, even without internet connection.

### Individual Site or Multiple Location Capabilities

Easily assign users to single or multiple locations, making it possible to manage one or many play areas quickly.

### Reporting & Analysis Tools

Park Protector makes it easy to review and analyze reporting data from your playground inspections.

## RENEW Playground Facelift

Give your worn and weathered playground equipment a “facelift” with **Playground Guardian’s RENEW** playground maintenance and cleaning services. If you have a limited budget, **RENEW** is the answer you have been looking for. **RENEW** can restore your play equipment for a fraction of what it would cost to buy new.

### Reconditioning Method Can Include:

- Powerwash
- Primer coat and painting of metal components
- Rubberized non-skid deck coating
- Chemical clean plastics
